

A Project report on

Art Gallery Expo

A Dissertation submitted to JNTU Hyderabad in partial fulfillment of the academic requirements for the award of the degree.

**Bachelor of Technology
in
Computer Science And Engineering**

Submitted by

**A.Vijay Vardhan Reddy
Ch.Usha
G.Manasa
G.Ganendhar**

**19H51A05J4
19H51A05K1
19H51A05K2
19H51A05K3**

Under the esteemed guidance of
G.VAMSHI KRISHNA
(Asst. professor)

**Department of Computer Science And Engineering
CMR COLLEGE OF ENGINEERING AND TECHNOLOGY**

(An Autonomous Institution under UGC & JNTUH, Approved by AICTE, Permanently Affiliated to JNTUH, Accredited by NBA.)
KANDLAKOYA, MEDCHAL ROAD, HYDERABAD - 501401.

2019- 2023

**CMR COLLEGE OF ENGINEERING &
TECHNOLOGY**

KANDLAKOYA, MEDCHAL ROAD, HYDERABAD – 501401

**DEPARTMENT OF COMPUTER SCIENCE AND
ENGINEERING**

CERTIFICATE

This is to certify that the Mini Project-1 report entitled "**Art Gallery Expo**" being submitted by **19H51A05J4 - A.Vijay Vardhan Reddy, 19H51A05K1 - Ch.Usha, 19H51A05K2 - G.Manasa, 19H51A05K3 - G.Ganendhar**, in partial fulfillment for the award of **Bachelor of Technology in Computer Science And Engineering** is a record of bonafide work carried out his/her under my guidance and supervision.

The results embodies in this project report have not been submitted to any other University or Institute for the award of any Degree.

G.VAMSHI KRISHNA
Asst. professor

Dr.K.Vijaya Kumar
Professor and HOD
Dept. of CSE

ACKNOWLEDGEMENT

We are highly indebted and grateful to our guide Vamshi Krishna , Assoc. Professor, Department of CSE, CMRCET for his excellent guidance and constant encouragement throughout for the successful completion of the Project. We are obliged and grateful to thank, Dr. k. Vijaya kumar , HOD, Department of CSE, CMRCET, for his cooperation in all respects. We are obliged and grateful to thank, Dr. B. LOKESHWAR RAO, Dean (Academics), CMRCET, for his cooperation in all aspects. We would like to thank Major Dr.VA NARAYANA, Principal, CMRCET, for his support in the course of this project work. We would like to thank Sri Ch. GOPAL REDDY garu, Secretary& Correspondent of CMRCET, for his cooperation in all respects during the course. Finally we would like to thank all teaching & non- teaching staff members of the department, for their cooperation and support throughout the duration of our course.

ABSTRACT

Art Gallery expo is a website where artists can show up their art work and customers can buy the art from art gallery. Now-a-days people are not having sufficient time to go to the art gallery and view the paintings, some may not have the chance to study the art compositions in that place. So this art gallery will give a chance to those who are keen at arts. By this website, end-users can explore all kind of art works. The arts done by the artists are thus exposed in the portal. The website is designed with a friendly user-interface and it also provides details of the art works such as table of content (details of the art). Art Gallery is a time and money saving web site concept.

CHAPTER 1

INTRODUCTION

1.1 PROJECT SCOPE

This project is meant for the customers and will be the basis for deploying the final delivered system. The requirement changes to the project can be made based on the customer needs, change in technology etc. Now-a-days the digital transformation is rapid. Trading things online is quite easy and convenient for all the parties involved. Internet based services are fast emerging and more and more people are getting comfortable with purchasing stuff online. Online art galleries are one such digital trend.

1.2 PROJECT PURPOSE

Art Gallery Expo is developed to encourage the artists to show-case their arts in online mode, so that their art get exposed and reaches to other art lovers. This application helps the end-users to find the arts and they can place order for the selected pieces. The end- user can also get the information about the art, so, that they can have more idea about that art. You can view and buy the latest Indian contemporary art collection available in our online art gallery. With this the artists will get financial aid and also their arts get exposed to other users also, this will encourage the talent as well.

1.3 PROJECT FEATURES

Art Gallery Expo is an online application, which is used to display and sell art works of artist irrespective of their nationality, gender and other narrow considerations through online. This will enhance the fame of the artists. Our project will acts as a bridge between artists and end-users. Users are also provided with login services and also provided with a chance to change the password of his account.

CHAPTER 2

EXISTING SYSTEM

2.1 PROBLEM DEFINITION

Art Gallery Expo is mainly developed to provide easy approach to the customers to keep track of art gallery details accurately. This reduces the manual work. Customers are provided login where their status can be viewed when required.

2.2 EXISTING SYSTEM

Customer can also register online and they can browse art works that are arranged in different categories scientifically. Each Customer can create their own gallery to see his favourite art works without much difficult. And each user has the right to purchase an art work using the integrated payment gateway and participate in auction by submitting their bids. Qualified bidder should remit the amount using payment gateway and after each valid payment the art work will be shipped within some days

2.2.1 LIMITATIONS OF EXISTING SYSTEM

- We could not get the composition of the art,
- Selling of same art which is already bought by another customer,
- Not providing data about the art in tabular format,
- Failed to provide security to the art,
- Not conducting special exhibitions for promotion of website.

CHAPTER 3

PROPOSED SYSTEM

3.1 PROPOSED SYSTEM

ART GALLERY EXPO is application software and it is very helpful for the art lovers and others who want to know the addresses where this kind of arts will be sold. This application helps the end-users to find the arts and paintings and they can place order for the selected pieces. The end-user can also get the information about the art and the respective address of the artist. Art Gallery brings you an opportunity to view online art at our Art Gallery Expo. The Art Gallery Expo is updated frequently, so the user can view and buy the latest collection of contemporary art online from anywhere in the world. You can view and buy the latest contemporary art collection available in the website and also contact them.

3.1.1 ADVANTAGES OF THE PROPOSED SYSTEM

The system is very simple in design and to implement. The system requires very low system resources and the system will work in almost all configurations. Digitalization is procedure of converting a offline working process into a digital trend. To overcome some of the defects of the existing system new techniques were introduced by the computerization of organization we get many benefits.

The main objectives of undertaking this project are:

- The users will register via Online mode.
- Individually each member will have his account through which he can access the art he needed.
- Art details like artist, description, composition of the art, availability of the art, etc. all this information is available.
- Administrator can delete the abusive and arts which gives reliability.

3.2 HARDWARE & SOFTWARE REQUIREMENTS

3.2.1 HARDWARE REQUIREMENTS:

Hardware interfaces specifies the logical characteristics of each interface between the software product and the hardware components of the system. The following are some hardware requirements.

Platform	:	windows and later versions.
RAM	:	8GB
System configuration	:	32GB

3.2.2 SOFTWARE REQUIREMENTS:

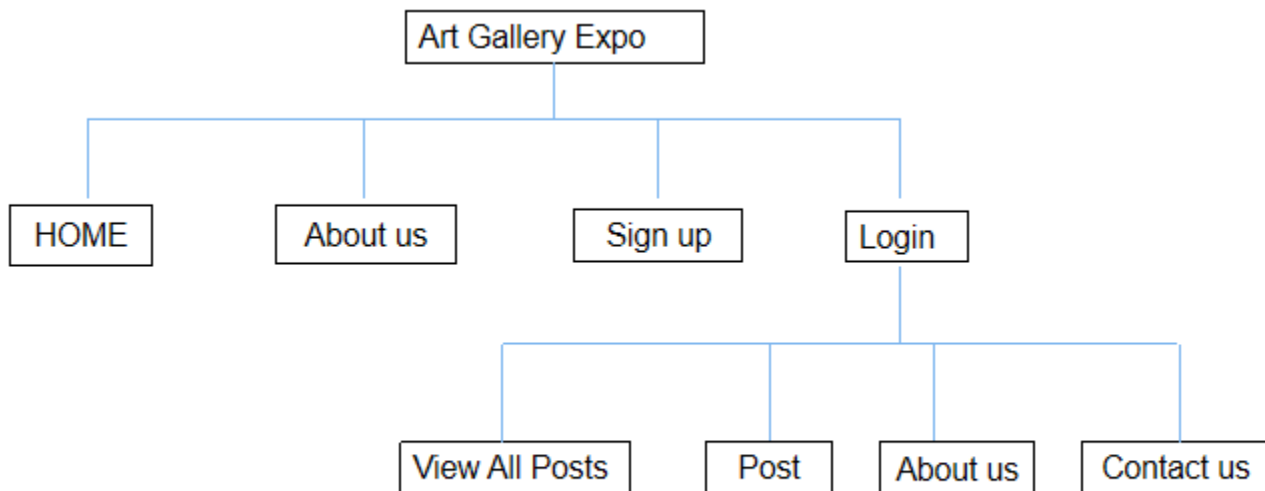

Software Requirements specifies the logical characteristics of each interface and software components of the system. The following are some software requirements

Operating system	:	Windows 10
DBMS	:	MongoDB.
Compiler	:	Visual studio code
Front-end tools	:	HTML,CSS,Bootstrap ,EJS.
Back-end tools	:	Node Js,Express.Js.

CHAPTER 4 DESIGNING

4.1 PROJECT ARCHITECTURE

This project architecture describes about how a data will be stored in database. This describes how a user requests and an admin will generate a response. The detailed architecture is explained below.

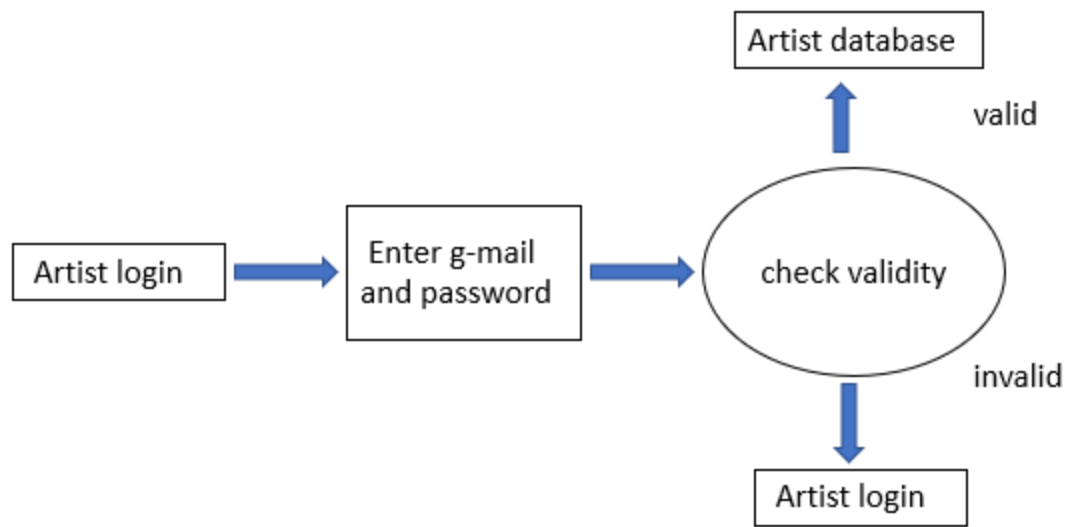

4.2 MODULES DESCRIPTION

Modules

- Artist
- Customers

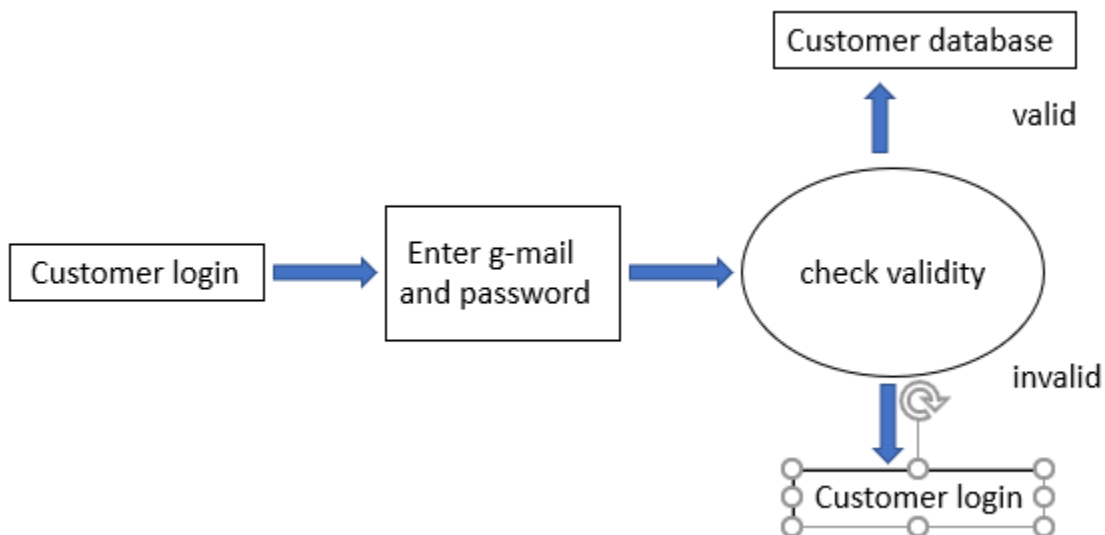

4.2.1 Artist

In this artist module, arts are supposed to be posted and respective details are to be given by the artist so that is easy to the customer to purchase. Firstly, the artist has to sign up to create an account and then add their details and the start posting their arts into the website.

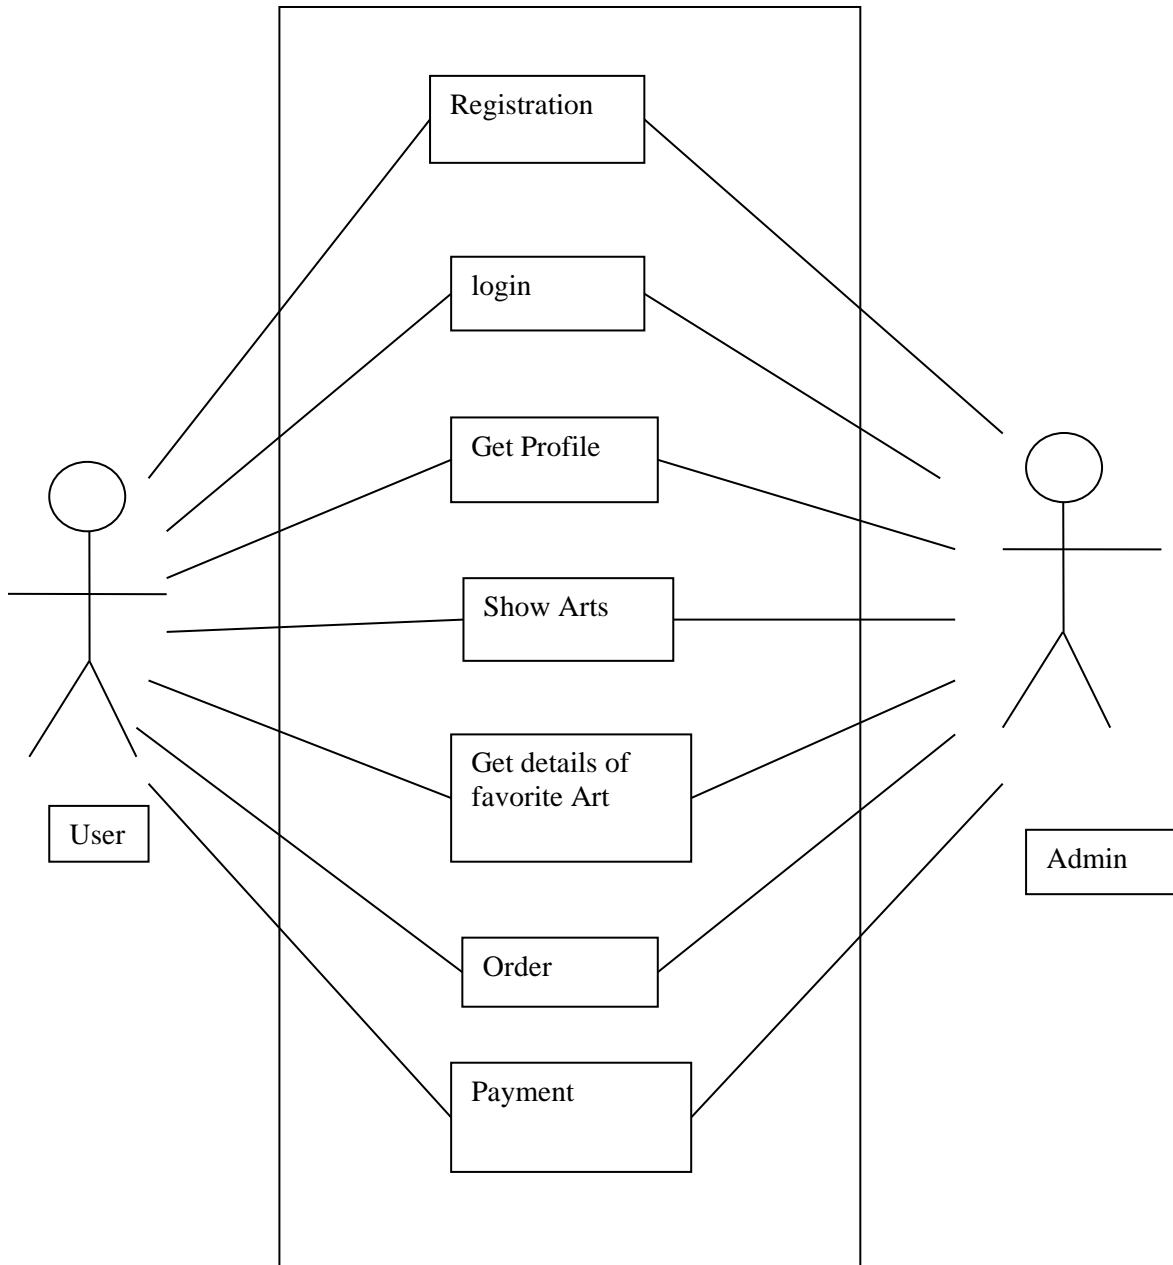

4.2.2 Customer

This module gives information about the user details. The user has to enter the details and then login into the account if the user is new, he has to create an account and then login. the customer can browse the arts and then purchase them after viewing the contact details of the artist.

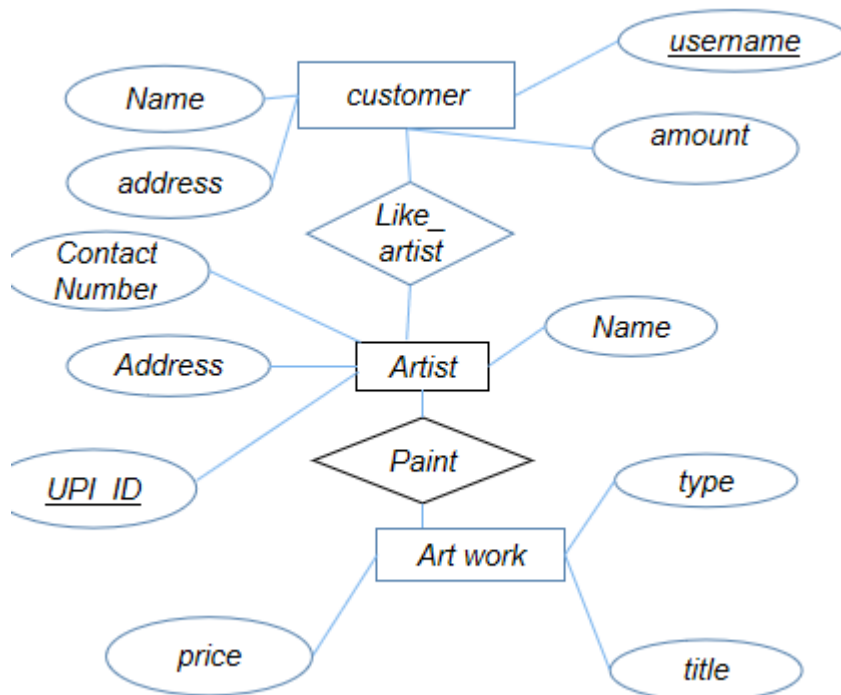

4.3 USE CASE DIAGRAM

4.4 UML DIAGRAM

4.5 E-R DIAGRAM

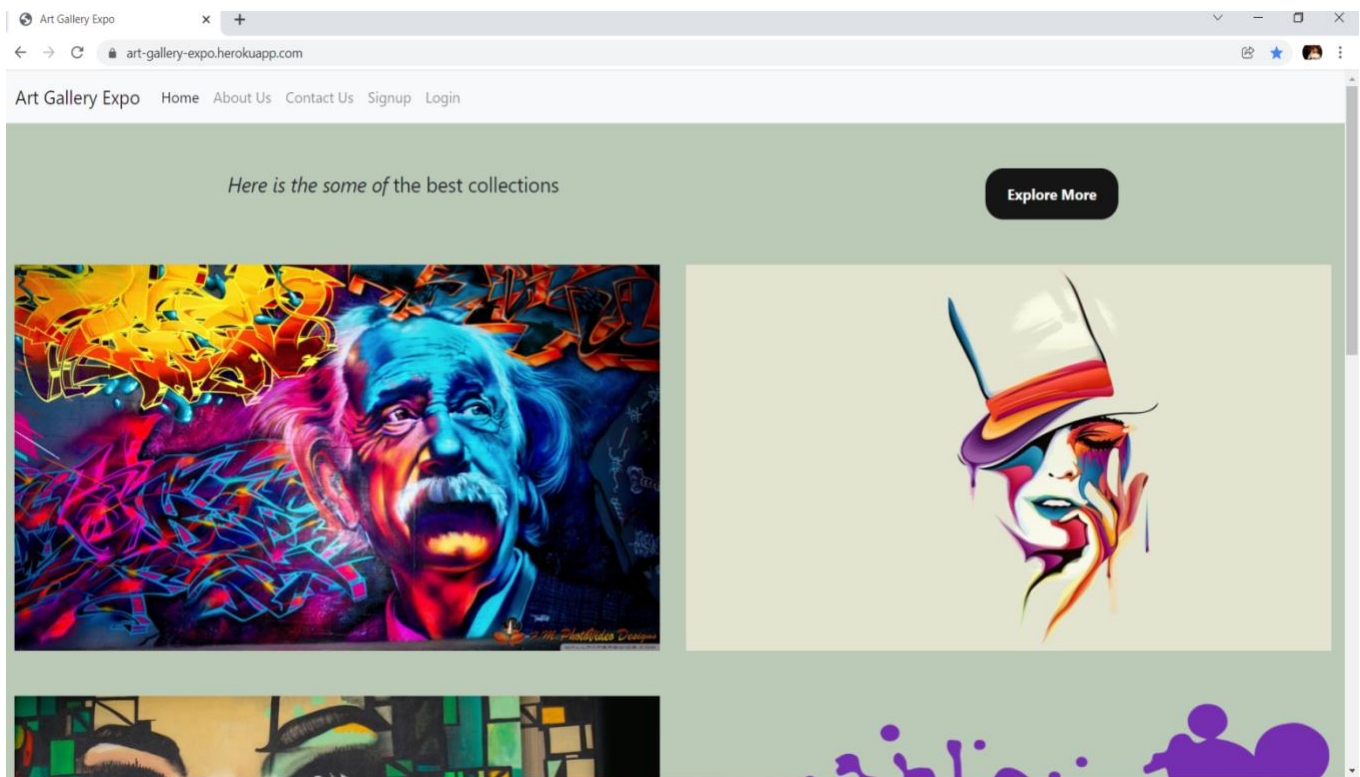

CHAPTER 5

IMPLEMENTATION

5.1 HOME PAGE

This is Home Page where user can see the whole project.

CHAPTER 6

CONCLUSION

6.1 PROJECT CONCLUSION

As people are busy in their own schedules and they are unable to visit the gallery so as to maintain a communication between the artist and the customer, Online Art Gallery Expo acts as a medium. The main aim of the online art gallery expo is to decrease the stress and letting them to enjoy the arts through online mode, which also reduces their travel stress. The customers can order any of the art work, and can also contact the artist for any further communication.

6.2 FUTURE EXTENSION

As the future technologies increase day by day changes accordingly can be made. There are different options like bidding, and information of the exhibitions that are conducted nearby can also be included.
